

Trustee minutes from May 2nd 2010

In attendance:

Duke Deitz, Benny Jasso, Val Vega

Opening prayer: Duke Deitz

Due to the absents of the other trustees, the financial update was not reviewed.

Old Business:

Main hall way bathrooms seem to be progressing, many favorable comments from church members

Old and dysfunctional tables will be able to be sold by the UMW at their next bazaar should they wish to do so.

The bid to do the air conditioners for the MAC center, little lambs class rooms, and memorial Sunday school room was received from Perfect Environmental Systems. We would prefer to use them because of the quality of their work and the fact that they are members of our congregation, but the cost is just too much at this time .

Signs have not been made for the church directions (for approval).

Need a cost of a lift for the second story closet door way.

New Business:

Need to purchase some hardware to fix some handles on a few doors. (approved).

Old sound equipment to be given to a church that needs some via conference (approved).

Church work day to be at the end of June. (approved)

Current list of items to be done. Paint bell tower cross, tile below fellowship hall kitchen pass through, paint cabinets in the fellowship hall, cut concrete for the drain outside of the MAC kitchen, fix asphalt in the south parking lot, fix the roof. Parsonage?

Closing prayer: Duke Deitz
